Your Garden Is A Sanctuary Of Elegance & Tranquillity

At Unique Projects, we believe a garden should be more than beautiful. It should be functional, enduring and completely in tune with the way you live.

It should be your space to enjoy and not be a burden or a 'second job'. We are all busy in life with our careers, family and treasuring spare time when it can be grasped. We can facilitate this by doing the hard work for you to allow you to do what you'd like to do when you'd like to do it.

This brochure shares just a glimpse of what's possible when high standards in landscape management and horticulture are delivered.

If you're ready to take the next step towards an exceptional garden space, we would be delighted to talk.

A Garden Can Be A Joy But Equally A Burden

A beautiful home can be overshadowed by a garden that doesn't match its elegance.

Many homeowners struggle with outdoor spaces that feel disconnected, uninspired or simply forgotten and overlooked as their precious time is called for elsewhere.

A garden should be more than just a patch of grass and can be, it should be an extension of your home, reflecting your lifestyle, taste and aspirations and be a place to find sanctuary away from the hustle and bustle of everyday life.

What Are Master Gardeners, Are They Magicians?

The answer to that could be 'almost'! What they are are a team of highly focussed, skilled horticulturalists, from our Master Gardeners right down to our trainee gardeners.

We are not the sort that you see mowing verges and large open spaces and making a racket blowing leaves and grass cuttings from A to B or trimming shrubs to within an inch of their life. We can do that when required, but we are much more than that. Our gardeners are passionate about the detail, always rise to a challenge and often work hand in hand with our landscape building teams to look after the gardens they create as they mature.

They know what needs to be done in your garden from season to season and will nurture your garden to be better than it ever has been, whether that's pruning your ancient ornamental rose or expertly training your Wisteria to flourish or managing wider estate grounds.

A Simple Process to Assist With Your Outdoor Space

Discover

One of our Directors or our Head Gardener will visit and understand the brief you as a client require from your garden.

Advise

We will put together a detailed, bespoke annual management plan for your garden individually tailored to your garden’s needs.

Implement

Our teams will visit at times agreed and carry out their tasks efficiently and professionally leaving you with a garden you can enjoy.

Each step is seamless, stress-free and tailored to ensure the final result exceeds expectations.

Step Outside & Feel Inspired Every Single Day

Let us to the hard work so you can enjoy precious time in your garden
with your family and friends.

What Our Clients & Partners Are Saying

“The landscaping, construction and horticultural expertise and experience that Ben, Tony and their amazing team at Unique Projects brought to the project was paramount to its overall success.”

“I enjoy working with Tony, Ben and the rest of their team. Their range of professional landscaping skills is second to none.”

Nick, Pie Factory, London

“We have done some exciting projects together over the last 6 years and I know my designs will exceed expectations in their capable hands. We are just starting a new project on the Blackdown Hills and another on the Mendips and planting up another near Crewkerne... it’s going to be a fun year!”

Katherine Crouch, Garden Designer

“Unique Projects certainly enjoy a challenge! They have built us a stunning terrace surrounding our existing pool and despite springs welling up and difficult terrain, we now have the perfect patio and landscaping with lighting. A marvellous, beautiful space for us to share with family and friends.”

John & Sue, Devon

QUOTES

"A garden is not a place. It's a journey."

— Monty Don
